Eurasian Masterclass on Penile Surgery-3 İstanbul

27-28 November 2026

Radisson Blu Şişli Hotel, Türkiye

PROGRAM - Day 1 — Friday, 27 November 2026

08:00-08:20 **Welcome and Introduction**
Opening Speeches

- **Alper Ötünçtemur** - Head of the Urology Department, Prof. Dr. Cemil Taşçıoğlu City Hospital
- **Metin İshak Öztürk** - President, Turkish Society of Andrology (TSA)
- **Abdel Rahman Zahran** on behalf of MESSM
- **Ateş Kadıoğlu** - Honorary President, TSA; Director of the Masterclass
- **Ali Alemdar** - Chief Physician, Prof. Dr. Cemil Taşçıoğlu City Hospital

08:20-08:30 **Live Surgery Session 1: Case Presentations**
Presenters: ***Taha Uçar, Abdullah Akdağ***

08:30-10:30 **Live Surgery Session 1**
Moderators: ***Gerald Brock***

Theatre 1:	Peyronie's disease with longitudinal ventral incision	***Run Wang***
Theatre 2:	Penile prosthesis implantation in a fibrotic penis	***Tobias S. Kohler***

10:30-12:10 **Plenary Session 1**
Moderators: ***Ateş Kadıoğlu, Metin İ. Öztürk***

10:30-10:50	Alternative reservoir sites: a critical analysis	***Run Wang***
10:50-10:55	Discussion	
10:55-11:15	Peyronie's disease surgery: pearls of wisdom from ICSM	***Gerald Brock***
11:15-11:20	Discussion	
11:20-11:40	How to optimize revision surgery	***Ateş Kadıoğlu***
11:40-11:45	Discussion	
11:45-12:05	Improvements in penile implant surgery technology and future directions	***Hossein Sadeghi-Nejad***
12:05-12:10	Discussion	

12:10-13:00 **LUNCH**

13:00-15:00 **East Society for Sexual Medicine (MESSM) Session**
Chairs: ***Osama Shaeer, Mohamed Arafa, Ahmad Majzoub***
Theme: Treatment of complications of penile prosthesis implantation

MESSM

13:00-13:15	Urethral perforation – ***Osama Shaeer***
13:15-13:30	Proximal perforation - ***Osama Shaeer***
13:30-13:45	Crossover - ***Osama Shaeer***
13:45-14:00	Glans necrosis - ***Mohamed Arafa***
14:00-14:15	Hematoma - ***Mohamed Arafa***
14:15-14:30	Bladder, vascular, and bowel injury – ***Ahmad Majzoub***
14:30-14:45	Concorde deformity, supersonic transporter deformity, and floppyglans - ***Ahmad Majzoub***
14:45-15:00	Discussion

15:00 - 15:15 **COFFEE BREAK**

PROGRAM - Day 1 — Friday, 27 November 2026

15:15-16:00 Fellow's Session

Format: Fellows ask each other
Opening remarks: Abdullah Akdağ (3 min) - personal route to fellowship with mentor, first meeting, motivation, challenges, facilitators, and key take-home lessons

15:15-15:20	1. What should a fellow consider when choosing a mentor? ***Taha Uçar***
15:20-15:25	2. Should intensive andrology education be undertaken during residency or after specialist training? ***Mehmet Gürcan, Mutlu Çakır***
15:25-15:30	3. What are the differences between domestic and international fellowship pathways? ***Samet Şenel, Gökhan Çevik***
15:30-15:35	4. The fellow's "wish I had known" points ***Emin Gürtan***
15:35-15:40	5. What changes in the early period after fellowship? ***Turgay Kaçan, Ahmet Halil Sevinç***
15:40-15:45	6. What changes in the long-term period after fellowship? ***Arif Kalkanlı, Murat Şambel***
15:45-15:50	7. How Should a Fellowship Program Be Structured? ***Mithat Ekşi***
15:50-16:00	Discussion

16:00-17:00 Eurasian Session
Chairs: ***İlham Ahmedov, Taner Yusuf, Nurbek Monolov***

Theme: My Difficult Andrology Case

16:00-16:10	***Ilham Ahmedov***
	Discussion: 2mins
16:12-16:22	***Senad Bajramovic***
	Discussion: 2mins
16:24-16:34	***Taner Yusuf***
	Discussion: 2mins
16:36-16:46	***Gjergji Semini***
	Discussion: 2mins
16:48-16:58	***Shavkat Shavakhabov***
	Discussion: 2mins

PROGRAM - Day 1 — Friday, 27 November 2026

17:00-18:30 **Penile Prosthesis Hands-On Workshop Rigicon**

Trainers: ***Metin İshak Öztürk, Mustafa Melih Çulha, Halil Lütfi Canat, Murat Şambel***

Workshop: Penile prosthesis implantation on silicone models

Objectives and Goals
The aim of this training is to enhance participants' practical skills in infrapubic and penoscrotal penile prosthesis surgery, and to provide experience in the surgical techniques and topographic anatomy related to possible complications. Through hands-on practice using silicone models, the program aims to enable participants to perform penile prosthesis implantation safely and effectively.

By the end of the training, participants will be able to:
1.Identify different types of penile prostheses (inflatable and malleable),
2.Perform corporal body preparation, and reservoir and pump placement using the infrapubic and penoscrotal techniques on a silicone model with proper surgical methods,
3.Discuss preventive measures and management strategies for potential intraoperative complications (such as perforation, malposition, etc.) and, through hands-on practice, achieve a basic level of surgical competence in penile prosthesis implantation.

17:00-18:30 **Guided Poster Presentation Session**

Part 1: Location: Foyer West Side
Chair: ***Barış Altay, İrfan Orhan, Murat Dursun***

Part 2: Location: Foyer East Side
Chair: ***Murat Çakan, Tolga Karakan***

Format: Accepted posters will be displayed in the foyer. The chair will lead a moderated poster walk; each presenting author will deliver a concise 2-minute structured presentation at the poster, followed by brief questions and comments. Presenters are expected to remain available by their posters throughout the session to support scientific discussion and networking.

Eurasian Masterclass on Penile Surgery-3 İstanbul

27-28 November 2026

Radisson Blu Şişli Hotel, Türkiye

PROGRAM - Day 2 — Saturday, 28 November 2026

08:20-08:30 **Live Surgery Session 2: Case Presentations**
Presenters: ***Samet Şenel, Mithat Ekşi***

08:30-10:30 **Live Surgery Session 2**
Moderators: ***Run Wang; Tobias S. Kohler***

	Theatre 1: Penile prosthesis implantation in a patient with severe Peyronie's deformity (auxetic incision)	***Ateş Kadıoğlu***
	Theatre 2: Penile prosthesis implantation revision surgery	***Gerald Brock***

10:30-12:00 **Plenary Session 2**
Moderators: ***Hossein Sadeghi-Nejad, İsa Özbey***

10:30-10:50	Peyronie's disease lengthening procedures a critical analysis	***Hossein Sadeghi-Nejad***
10:50-11:10	Penile prosthesis implantation: prevention of infection	***Tobias S. Kohler***
11:10-11:30	Challenging cases in Peyronie's disease: updated evidence and surgical decision-making	***Gerald Brock***
11:30-11:50	Penile surgery incision techniques: comparative analysis	***Run Wang***
11:50-12:00	Discussion	

12:00-13:00 **LUNCH**

13:00-14:45 **Live Surgery Session 3**
Moderators: ***Abdel Rahman Zahran, Hossein Sadeghi-Nejad***

13:00 - 13:45	Case presentation and theoretical background of cryoablation	***Emre Salabaş (Semi live)***
13:45 – 14:45	Challenging cases in penile surgery	***Ateş Kadıoğlu (Semi live)***

14:45-16:00 **Plenary Session 3**
Moderators: ***Murat Çakan***

14:45-15:00	History of andrology in Türkiye: What has been different in 35 years	***İrfan Orhan***
15:00-15:15	Surgical treatment of priapism	***Mustafa Kadıhasanoğlu***
15:15-15:30	An overview of PDE-5 inhibitors in 28 years	***Hossein Sadeghi-Nejad***
15:30-15:45	Penile enlargement materials: which is the best	***Dmitry Kurbatov***
15:45-16:00	Indications (ED, Chronic prostatitis) of extracorporeal shock wave therapy (ESWT) and comparison of devices	***Erhan Ateş***

PROGRAM - Day 2 — Saturday, 28 November 2026

16:00-17:00 **Residents Ask the Experts (ESRU Session)**
Case presentations (Total 6 cases):

Case 1: ***Mutlu Çakır***
Case 2: ***Fırat Özervarlı***
Case 3: ***İsmail Tekin***
Case 4: ***İlayda Özden Yıldırım***
Case 5: ***Baran Arslan***
Case 6: ***Muhammed Zübeyr Canbolat***
Panelists: ***Osama Shaeer, Gerald Brock, Run Wang, Tobias S. Kohler, Hossein Sadeghi-Nejad***
Format: Interactive case-based discussion led by residents, followed by expert comments, practical decision-making points, and audience questions.

17:00-17:20 **Current use of ESWT in genital system** ***Mazhar Ortaç***

17:20-18:00 **ESWT Hands-On Workshop**

Trainers: ***Ali Yıldız, Tuncay Taş, Abdullah Armağan***
Objective: This practical workshop is designed to introduce the principles of low-intensity extracorporeal shock wave therapy in andrology, with emphasis on patient selection, device setup, probe positioning, treatment mapping, safety checks, and documentation of treatment parameters.
Learning objectives: define appropriate indications, contraindications, and counseling points for ESWT in erectile dysfunction and related andrological conditions; demonstrate correct probe positioning and treatment-zone mapping on models or simulation stations.
